

Reference Example: EfW Boiler (B1&B2) Tyseley / UK

2 units of 4-pass horizontal boiler,
steam capacity 65 t/h

Boiler width: 5 m

04/2010 : 2 x EG10 for testing,

Since 03/2011, per boiler: 4 EG10

Since 05/2014 and 10/2014, per boiler: 5 EG10

Rapping system completely stopped

Cleaning efficiency good

Considerable improvements:

- availability increased
- Water consumption decreased
- Electricity production increased
- Intermediate cleanings reduced

Plant supplier: Fisia Babcock (Steinmueller)

Plant operator: Veolia Environmental Services
