

Reference Plant

MSW Boiler Lucerne (Perlen) / CH

- 2 boilers with 58 t/h steam flow per unit
- Boiler width 5.5 m
- 6 x Shock Pulse Generator EG10L, since 01/2015 (3 per boiler)
- Good cleaning effect at 1st, 2nd and 3rd pass
- Plant supplier: Hitachi Zosen Inova
- Plant operator: Renergia
- At the previous, nowadays decommissioned WtE plant at Lucerne, all 3 boilers were cleaned exclusively by Shock Pulse Generators for 5.5 years
